

BLOCK LEGEND

You are a tourist in some ruins in central america. You get lost and fall inside one of the pyramid ruins. on the inside there are monsters and weird blocks. Push the blocks to get to the doorway. This doorway will take you to the next level. Complete all levels and you'll have escaped from the piramid you are trapped on.

Controls:

arrows to move

A to push blocks

B to use the special power

SELECT to reset level in case you mess up

START to pause level

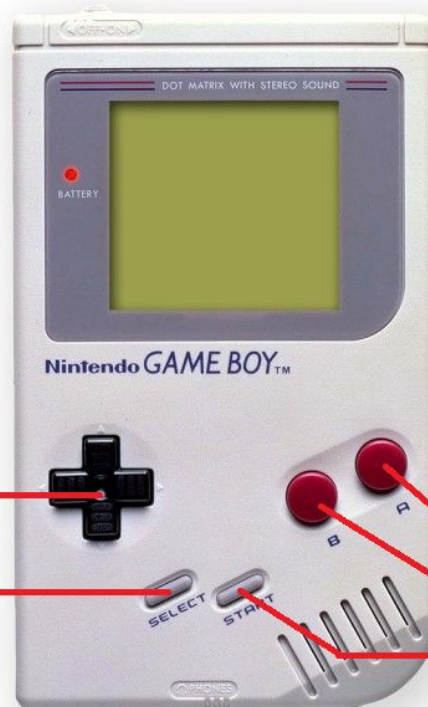

move

reset level

push block

B power

pause

Blocks:

common block: You can push it around. There are 3 variations.

? block: These blocks will disappear after pushing them. If something is blocking the way, then it won't move or disappear.

B power block: If you push this block, it will disappear leaving a weird tile on the floor. You can now press B to make a wall or block disappear.

! block: these blocks explode clearing a whole area of 3x3

weird sign block: push it around like common

blocks, but if it gets pushed over a  sign in the floor, it will turn into a doorway

number blocks: Each time you push them, they become a smaller number. If it reaches 0, you won't be able to move it again.

notes:

Some walls look like one of the variations of the common block.

Some walls are invisible. These aren't very common. Can you find one?

Sometimes blocks can behave in strange ways...

Enemies:

there are 3 bosses and one extra enemy
can you beat them all?

Level 3:

Level 6:

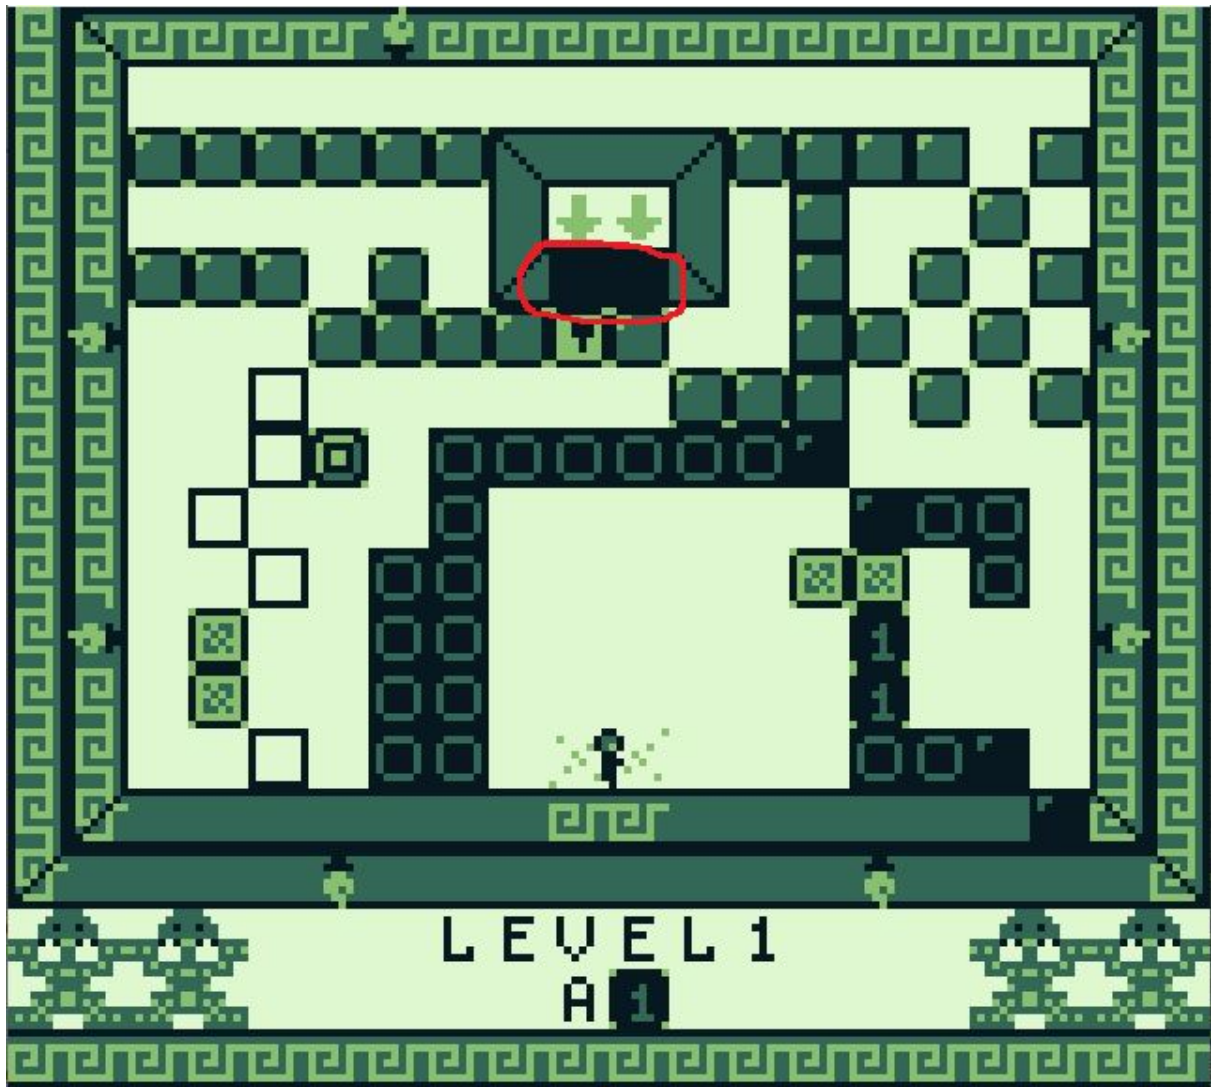

Level 9?

Level 12:

How to win:

In order to win a level you have to enter a doorway, which look like a black square. In the first levels there are arrows over the doorways to help people that are playing for the first time.

In other levels there are no doorways, so you need to move

the  blocks over a  sign.
